Kyle – questions and discussion of next steps

- How a bond can save us money?
- CRC needs details to advertise these decisions
- What is the status of State Funding?
- Has anything changed in the proposed process or timing? i.e. if a new warrant passes, would the activities that lead up to breaking ground change from what we believed last year (blueprints, permits, state application, etc.)?
- Is there something we could/should have done differently when preparing for the warrant article (from the time of Kyle's presentation to the point of the vote)?
