Thesis Statement Planning for Honors

Use this planning sheet to write your thesis statement.

TOPIC vaccination schedule

VIEWPOINT

people should follow the American Pediatric Academy's vaccination schedule

Argument #1

Vaccinating children is the best way to prevent or eradicate serious disease.

Argument #2

Vaccines have no effect on a child's brain development.

Argument #3

Vaccines protect those who are unable to be vaccinated themselves.

Argument #4

Vaccines are cost effective in comparison to money spent combating disease.

Write a thesis statement based on the information in the top-down web from above.

Thesis

People should follow the American Pediatric Academy's vaccination schedule as it is the best way to prevent or eradicate serious disease, has no impact on brain development, protects those who are willing but unable to be vaccinated, and is more cost effective than treating or combating disease that has become established.
